PowerScale

Store and Protect a World of File Data

CoAction

Unstructured data drives growth & innovation

Any Scale
Start small, grow to petabyte scale

No node left behind
Add new and remove old nodes with no downtime

Ransomware protection
Stop ransomware real-time with API-integrated solution

Resilient
Sustain multi-node failures; designed for 6x9s availability

Efficient
Inline data reduction with no hot spots and AutoBalane

DevOps ready
Utilize new Ansible and Kubernetes integrations

DELL   PowerScale

Dell Unstructured Data Solutions

#1
Unstructured Data Storage Vendor

60%
of Fortune 500 customers

30EB+
Raw capacity shipped

15,000+
Customers as of 2021

EDGE
Process real-time at edge

Small footprint,
high bandwidth

Simple to deploy
for data intensive apps

Data can be replicated
to core data center

CORE
OneFS Automation

DELL PowerScale

Single policy-based platform
for every use case

CLOUD
Process real-time at edge

Seamless mobility
to cloud

Combines the economics of cloud
with OneFS performance

Hybrid Cloud
architecture

PowerScale

CoAction

We can cover all your workload needs

World's most flexible scale-out NAS solution

All-flash, hybrid and archive nodes support:

| High Performance	· AI / ML / Analytics · Genomic Sequencing · EDA (Electronic Design Automation, ex processors)
General Purpose	· Automotive (ADAS) · M&E · Content creation, broadcast, content delivery · Healthcare · Life Sciences · Analytics
Cost Effective	· Safety and Security (e.g., video surveiilance) · Archiving
