

# EZOnboard and Offboard

Software that integrates your HR system with Active Directory, completely automates IT Onboarding & Offboarding for you

YOUR HR SYSTEM

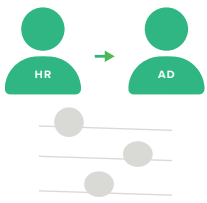

ezOnboard

Microsoft Active Directory

## IT ONBOARDING

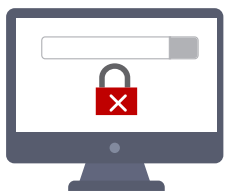

- Dramatically reduce IT Onboarding SLAs and improve Onboarding experience
- Reduce IT helpdesk/service desk costs and enable IT to focus on business
- Handles FTEs, Contractors, Consultants & Vendors
- Access Provisioning based on client defined business rules
- AD account, mailbox, license allocation, Teams memberships,
- Integrates with downstream SaaS applications via Azure Active Directory (AAD Single Sign On (e.g.Zoom, Salesforce, Box, etc.)

## LIFECYCLE UPDATES

- Automatically update AD/AAD account whenever employee lifecycle changes occur
- E.g. Promotions, title change, manager change, dept change, location change, mobile number change, etc.
- Access provisioning changes related to lifecycle updates (important for Cybersecurity)
- When people lookup their colleagues in Outlook or Teams information is always accurate
- Improve collaboration & communication

## IT OFFBOARDING

- Instantaneous offboarding based on business rules
- All access is revoked including downstream SaaS applications
- No longer a Cybersecurity risk
